OUR STORY

A decade of expertise. A new standard of quality.

EST. 2026 · LUCKNOW, UTTAR PRADESH

Track and Field Infra Pvt. Ltd. was founded to raise the standard of quality, durability and professionalism in India's sports infrastructure industry.

The company is led by professionals with more than ten years of hands-on experience delivering athletics tracks, football grounds, multisport facilities and sports development projects across the country. Along the way they saw a recurring gap: too many projects were built for short-term margin rather than long-term quality, athlete safety and performance.

We were built to close that gap — on quality workmanship, technical excellence, transparency and long-term value. As India prepares for the 2030 Commonwealth Games and its Olympic ambitions, our aim is simple: to build the foundations for future champions.

10+
Years of leadership experience in sports infrastructure

50+
Projects delivered by our team

10+
States covered across India

10+
Sports served, indoor and outdoor

Decade of experience

Turnkey delivery
Site visit, design, BOQ, execution, AMC — one partner.

Quality first
Certified premium materials; athlete safety never compromised.

PLAY HAUS SPORTS FACILITY · ROHINI, DELHI

OUR PURPOSE

Vision, mission & values.

VISION

A leading force in sports infrastructure

To deliver world-class, high-performance facilities that inspire athletes, empower communities and contribute to a stronger, healthier and more competitive India.

MISSION

The foundation for future champions

To deliver sports infrastructure built on quality workmanship, technical excellence, transparency and long-term value — for every client we serve.

CORE VALUES

Quality · Innovation · Commitment · Excellence

Quality in materials and execution. Innovation in design. Commitment to timelines. Excellence as the standard, at every scale.

> *We don't just build sports facilities — we build future champions.*

WHY TRACK & FIELD INFRA

What sets us apart.

A specialist contractor with a single focus — sports surfaces and facilities — and one accountable team from first site visit to long after handover.

01 **Comprehensive solutions**

Site assessment, design, BOQ, execution and post-handover AMC — the complete lifecycle with one accountable partner.

02 **Sports infrastructure expertise**

Football, athletics, hockey, multisport and indoor courts. A singular focus means deeper knowledge than generalist contractors.

03 **Commitment to quality**

Only certified, premium materials — turf, EPDM, acrylic, PP tiles — each supplied with specification sheets.

04 **Timely execution**

Sports calendars don't move. Milestones are tracked daily, and our supply chain reaches remote districts on time.

05 **Transparent communication**

Detailed line-item BOQs, regular progress updates and no hidden costs or last-minute surprises.

06 **Client-centric approach**

A dedicated project manager on every project and post-handover support — a business built on relationships.

END-TO-END DELIVERY

One partner, start to finish.

From the first site visit to years of maintenance after handover, a single team owns your project — so nothing falls between contractors.

1

Site visit

Engineers assess soil, drainage and dimensions on site.

2

Consultation & design

A professionally drawn layout plan for your facility.

3

BOQ & proposal

An itemised Bill of Quantities — every line visible.

4

Execution

Civil, drainage, surfacing and fit-out to specification.

5

AMC & maintenance

Ongoing care that keeps the surface at its best.

WHAT YOU GET

The Track & Field promise.

Site visit services

An engineer evaluates soil, drainage and dimensions before any quotation is made — so the numbers are right from day one.

Custom design & BOQ

A professionally drawn layout and a detailed, itemised Bill of Quantities tailored to your site.

On-time delivery

Milestones tracked daily. Your facility opens when promised — for sports day or tournament deadline.

Certified materials

Artificial turf, EPDM and acrylic surfaces, all certified and supplied with specification sheets.

Dedicated project manager

A single point of contact from day one to handover — for updates, coordination and issue resolution.

AMC & maintenance

Brushing, infill top-up, seam checks and emergency repairs to keep your surface in competition condition.

WHAT WE BUILD

Our services.

Football grounds

Artificial-turf pitches for 5-, 7- and 11-a-side: civil sub-base, shock pad, turf, infill, line marking, goals and fencing. FIFA-quality materials.

5 / 7 / 11-A-SIDE · FUTSAL

Athletics tracks

World Athletics–compliant synthetic tracks in EPDM and polyurethane systems — 400 m loops, short circuits and sprint straights, with earthwork, grading and drainage.

EPDM · PU SYSTEMS

Hockey grounds

Water-based and sand-filled artificial-turf pitches for club and institutional play — certified surface systems, perimeter fencing and engineered drainage.

WATER-BASED · SAND-FILLED

Multisport facilities

Badminton, basketball, volleyball, futsal, box cricket, lawn tennis and pickleball — acrylic, PP interlocking tile and PVC vinyl surfaces.

INDOOR · OUTDOOR · PICKLEBALL

Bleachers & stadium seating

Bleachers, grandstands and spectator seating in powder-coated MS and aluminium, with row configuration and capacity designed to your venue.

GRANDSTANDS · CUSTOM CAPACITY

Turnkey projects

Complete stadium and sports-complex development — earthwork, drainage, surfacing, seating, tensile fabric structures and badminton hall sheds.

STADIUMS · SPORTS COMPLEXES

SURFACE MATERIALS

Our products.

ARTIFICIAL TURF

Football turf

FIFA-quality long-pile grass for football, futsal and multi-use pitches, with sand and rubber infill.

ARTIFICIAL TURF

Hockey turf

Water-based and sand-filled systems — low-pile, dense yarn for fast, accurate play.

TURF

Multisports turf

Short-pile turf configured for several sports, with multi-colour line marking.

GRASS

Landscape grass

Decorative artificial grass for gardens, terraces and recreational play areas.

SURFACE

Acrylic surfaces

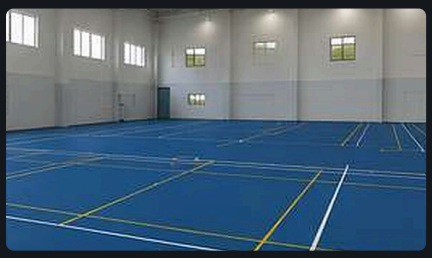

Hard acrylic courts for basketball, tennis, volleyball and multipurpose use.

TILES

PP tiles

Polypropylene interlocking tiles — durable, quick to install, in custom colours.

FLOORING

PVC vinyl flooring

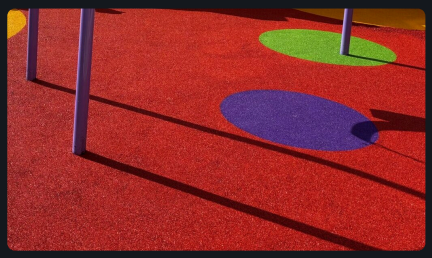

Professional sports vinyl for indoor courts, gyms and multipurpose halls.

EPDM

EPDM running track

World Athletics–compliant rubber granule systems: grip, shock absorption, all-weather.

EPDM

EPDM kids play area

Colourful, impact-absorbing safety flooring for play areas and school grounds.

Every material is supplied with its specification sheet.

Colours and systems customised per project.

FEATURED PROJECT

Play Haus Sports Facility

LOCATION	YEAR	TYPE
Rohini, Delhi	2026	Multisport

A premium multisport venue combining a netted, floodlit artificial-turf football pitch with four acrylic pickleball courts, set within landscaped walkways.

Delivered as a single package — surfacing, line marking, fencing and lighting — so the client worked with one accountable team throughout.

MYSURU, KARNATAKA · 2026

Rotary Public School

A striped artificial-turf pitch for the school's sports programme, enclosed with high-level netting and fence-mounted floodlights for evening use.

SCOPE

Turf pitch, line marking, netting, floodlights

UKHRUL, MANIPUR · 2026

Ukhrul Sports Ground

A football turf built on a terraced hill site in a remote district — proof that our supply chain and site teams deliver the same quality far from major cities.

SCOPE

Turf pitch, goals, perimeter fencing — remote hill location

FUTSAL & BOX CRICKET

EPDM KIDS PLAY AREA

GURUGRAM, HARYANA

Navriti School

A floodlit, fully netted artificial-turf court for futsal and box cricket, alongside a colourful EPDM safety-surface play area for the school's youngest students.

SCOPE

Futsal / box cricket turf, netting, floodlights, EPDM play area

NOIDA, UTTAR PRADESH · 2026

District 9 Practice Cricket Pitch

A covered, fully netted practice lane with a premium artificial-turf surface — built for year-round batting and bowling sessions, whatever the weather.

SCOPE

Practice turf, roofed steel structure, perimeter netting
